

Battery-operated Digital Pressure Gauge

DPG 400

Pressure ranges from 0 – 400 mbar to 0 – 600 bar

Accuracy $\leq \pm 0.25\%$

Application

The battery-operated digital pressure gauge DPG 400 is suitable for measuring and monitoring vacuum, positive pressures and absolute pressures of liquid and gaseous media for pressure ranges from 0 – 400 mbar to 0 – 600 bar.

A ceramic sensor serves as measuring element. The rotatable case is made of polycarbonate and has the degree of protection IP65. The digital pressure gauge is equipped with an integrated rotatable 4 ½ digit display with main and additional indication.

A unit conversion for widespread units has been integrated into the DPG 400. Additional functions are calibration of zero point and upper range value, min./max. value with reset function, battery status and an automatic switchoff.
